REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance of claims 1-8:

Claim 1, a reflective liquid crystal display comprises, in combination, an adhesive layer having a refractive index being lower than a refractive index of a light pipe; and there is no air layer being interposed between a plane light source device and a liquid crystal display panel.

Claims 2-8 are dependent on claim 1.

The applicant points out in Masuda et al. '999 (column 9 lines 3-6) that there is an air layer being present between the plane light source device (a front light 1) and the liquid crystal panel; and it would not been obvious to attach the plane light source and the liquid crystal panel together.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

Yano et al. [US 6,507,378] (or EP 0 957 392) discloses a reflection LCD unit having a plane light source being attached together with a liquid crystal panel; but Yano et al. does not clearly disclose or suggest the refractive index of the adhesive layer being lower than the refractive index of the light guide plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao Q. Truong whose telephone number is (571) 272-2383. The examiner can normally be reached on Monday-Friday (8:00 AM - 4:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra L. O'Shea can be reached on (571) 272-2378. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
